

Our Mobile Food Pantry Check-in just got faster!

What's happening: All Food Bank Mobile Food Pantry sites will begin to use to an electronic check-in system. *That means no more clipboard system!*

What are the benefits?

- Your check-in time will be faster and you will not have to give your information every time – just your last name.
- You'll receive the best, most needed food and products that are available. *(example: kid-friendly foods for sites that serve a lot of families)*

Questions you may have:

What information do I have to submit? The same information as always, plus your family members' names and ages and your street address.

Is my information secure? Yes, your information is kept secure and password-protected. It is not shared and will remain confidential. For more information, a privacy policy is available with the MFP site coordinator.

After I register, what happens on my next visit? At the check-in table, you give your last name or your Food Bank key tag, and get a number to hold your place in line. ***It's that easy!***

Please fill out the worksheet on the back of this flyer and hand it to the Mobile Food Pantry site coordinator before leaving today.

Other questions? Please contact:
